24 Paraganas(S), Kolkata 700137

Call for papers

Theme of the Seminar :

Challenges in Indian Education in 21st Century.

During the pre independent and post independent period we have witnessed the crucial role of education in the improvement of quality of life and increase of common people's freedom to participate in the process of development. India has been an active partner in the world wide movement for "Education for All" which was adopted by the World Education Forum of Dakar, Senegal during April, 2000. It was also known by the name of "Dakar Frame Work of Action". The human development report 2003 focuses on the Millennium Development Goals adopted by 189 countries to achieve universal literacy by 2015. This however cannot be achieved overnight. India has been working towards it over the years through certain phases, trying to bring about the changes through various angles. Progress during the last decade has given the insight that EFA goals are not impossible to achieve. Mere funds and schemes from the center do not guarantee the achievement of EFA goals. The aim of the seminar is to create awareness among the mass about the challenges faced by our Indian education system in present era.

Sub-themes :
